

SPAMFIGHTER EXCHANGE MODULE

SPAMfighter Exchange Module

"Not working with Spamfighter just isn't an option." - iObit.com

SPAMfighter Exchange Module is a maintenance free spam filter, which integrates flawlessly with Microsoft Exchange Servers (including Small Business Servers).

It is easy to setup and use and does not require any Specific technical background, so end users instantly saves time and money by stopping spam mails and malware.

- ✓ Instant protection against spam and phishing, no configuration required
- ✓ Automatic real-time protection and updates from a worldwide community
- ✓ Highest spam detection rate (over 98%) and very low false positive rate
- ✓ Privacy guaranteed – E-Mails never leave the user network
- ✓ Spam processing, blocking and money saving statistics
- ✓ Simple to use for end users - Spam is automatically moved to the Spam folder
- ✓ Available in multiple languages: English, German, Danish, Dutch, Spanish, French and Greek

"Awesome product!
We just purchased a
3 year subscription"

Bo Stewart
IT-Manager

How to get started

Users can Download the newest version of SEM and begin a free 30 day trial period of the full version. SEM offers an optional anti-virus program that integrates seamlessly with SEM and Microsoft Exchange.

Microsoft®
GOLD CERTIFIED
Partner
