SPAMFIGHTER ONLINE

SPAMfighter Online is the perfect solution for filtering spam from any device, anywhere in the world. It is convenient and maintenance free. With SPAMfighter Online, you can continue the war against spam no matter where you are in the world.

How it works:

When an e-mail is sent to you, it will be first scanned by the SPAMfighter Online server. If it is determined to be spam, it will be quarantined for you to review when you want. If it is determined to be a legitimate e-mail, it will be sent to you when you request your e-mail next. SPAMfighter Online works with PC's, laptops, mobile phones, PDA's, and any other device which you can use to check your e-mail.
